

Product Overview

Electronic Components

Sensors

Other Products

Authorised distributors
of high quality
Electronic Components
and Sensors
throughout Europe

Attenuators

[View Online](#)

- High Frequency Attenuators
- High Precision Attenuators
- Thermo Variable Attenuators

Capacitors

[View Online](#)

- High-Voltage Capacitors
- High temperature
- Non-magnetic

JFETs

[View Online](#)

- Amplifiers
- Chopper
- Regulators
- Switches

Relays & Switches

[View Online](#)

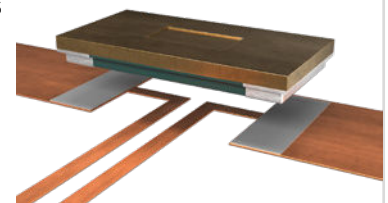

- High Reliability
- High-Voltage
- Low Thermal EMF
- Radio Frequency (RF)

Resistors

[View Online](#)

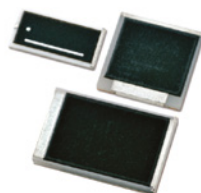

- Current Sensing Resistors
- High Temperature Resistors
- Network / Voltage Dividers
- Non-Magnetic Resistors
- Power Resistors
- Precision / Ultra-Precision Resistors
- Standard Resistors
- Thermosensitive Resistors

Terminators & Power Splitters

[View Online](#)

- High power performance
- Wide frequency range
- Small size

Customised Components and Sensors

Providing a vast array of electronic components, sensors and connectors for all types of applications and industries

[Find out more](#)

Magnetic Sensors

[View Online](#)

- Tunneling Magnetoresistance (TMR)
- Giant Magnetoresistance (GMR)
- Smart Sensor

Load Cells

[View Online](#)

- Canister Load Cells
- Clevis Pin Load Cells
- Low profile design
- Rod End Load Cells
- Subminiature design
- Miniature version

Pressure Sensors

[View Online](#)

- High temperatures
- Harsh environment
- Wireless
- PCB Mountable

Temperature Sensors

[View Online](#)

- Thermocouples
- RTDs
- Thermistors
- Semiconductor-based sensors
- Temperature sensors and probes

Environmental Measurement Sensor

[View Online](#)

- Absolute Pressure
- Air Temperature
- Volatile Organic Compounds (VOCs)
- Absolute & Relative Humidity
- Dew Point Temperature
- Shock load and duration

Current & Voltage Measurement

[View Online](#)

We offer a full range of modular data acquisition modules brought to us by Isabellenhütte.

- Current & Voltage Measurement

We're here for you

Commercial Support

- ✓ Buffer stock agreements
- ✓ Scheduled deliveries

Product Support

- ✓ Short lead times
- ✓ Customised products

**VIA E-MAIL**sales@rhopointcomponents.eu**VIA PHONE**[+49 9337 9712-520](tel:+4993379712520)

Our parent company, Rhopoint Components Ltd, was established in 1975 with the aim of supporting design engineers in the design of electronic solutions and product development through a range of precision components and sensors in the UK market.

Rhopoint Komponenten GmbH, our subsidiary with a distribution centre in Gaukönigshofen, Germany, will strengthen this product and service offering in Europe.

In order to offer you the most efficient service possible and fast delivery times, we keep many products in stock on site and have our own experienced team on hand to provide you with advice and assistance.

Rhopoint Components Ltd are a part of the Rhopoint Group, specialising in the distribution of precision electronic components, sensors, connectors and enclosures. We are an authorised partner for over 25 industry-leading manufacturers from around the world offering an extensive range of stocked lines and fully customised solutions to meet your requirements.

We have offices based in the UK and Europe dedicated to providing localised support.

From the depths of the earth to outer space:
We supply specialised sensors and components that are suitable for the most extreme environments

Resistors | Pressure Sensors | Temperature Sensors

All product categories also available with approval for the aerospace or automotive industry

Customised options available for most products

Technical support from experienced engineers
